

EUROFLEX® FOR CLIMBING HALLS

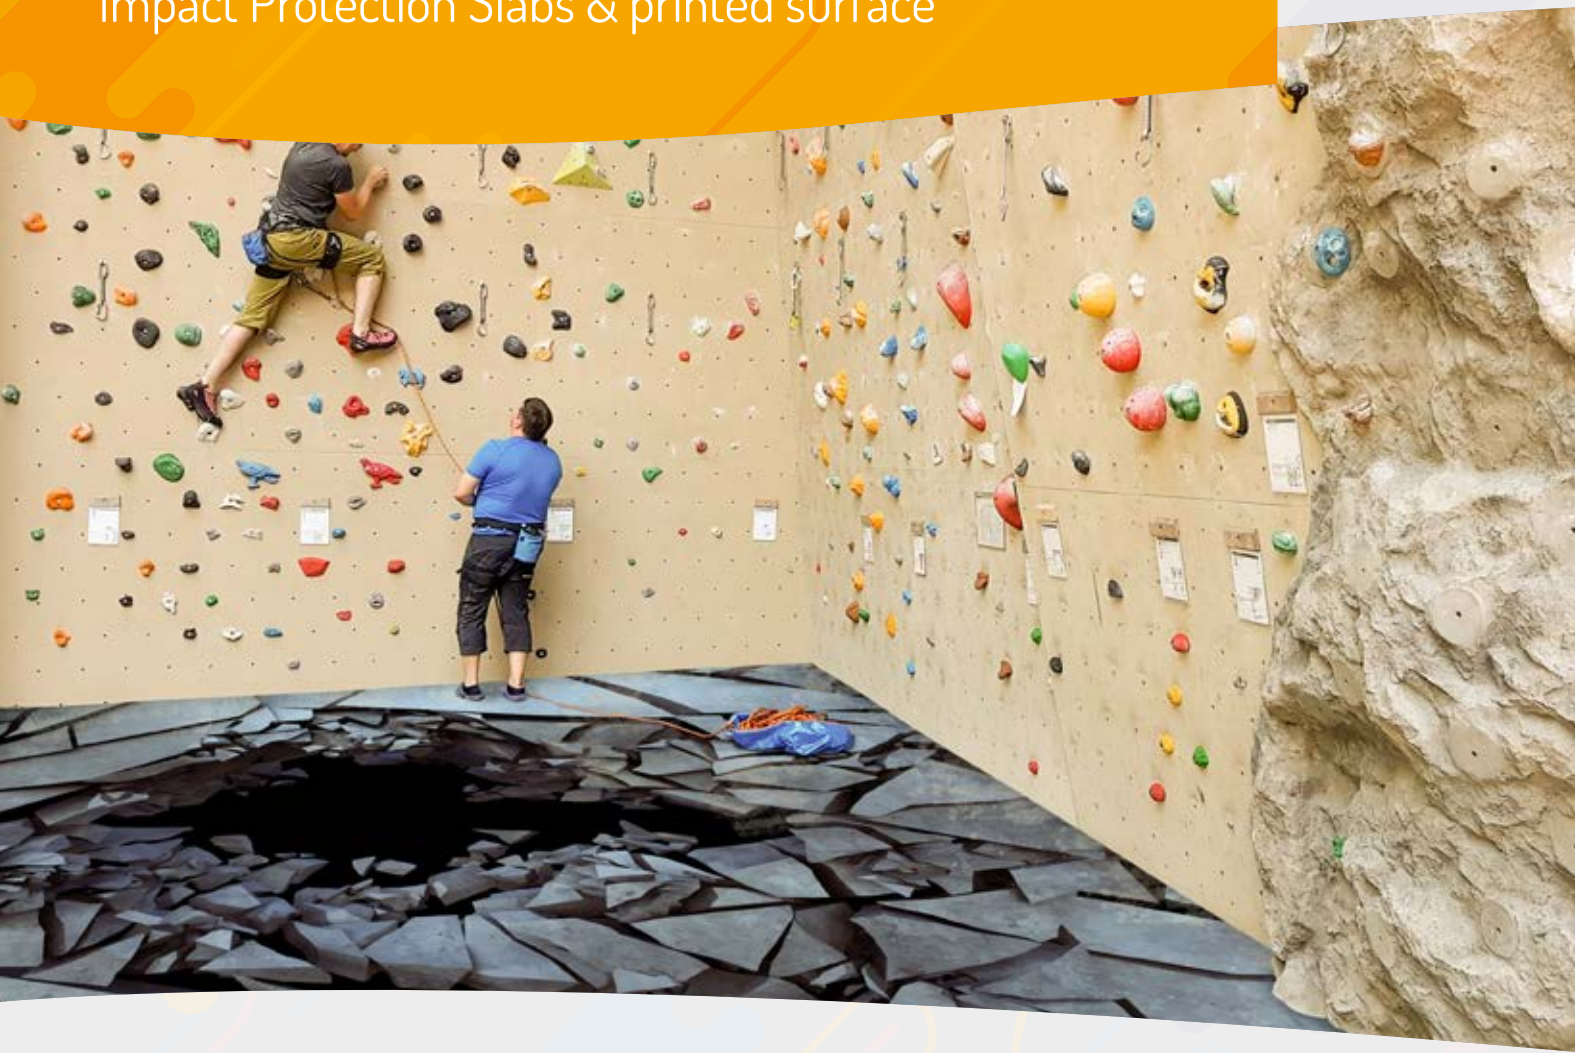

Base Camp: Impact Protection Slabs & printed surface

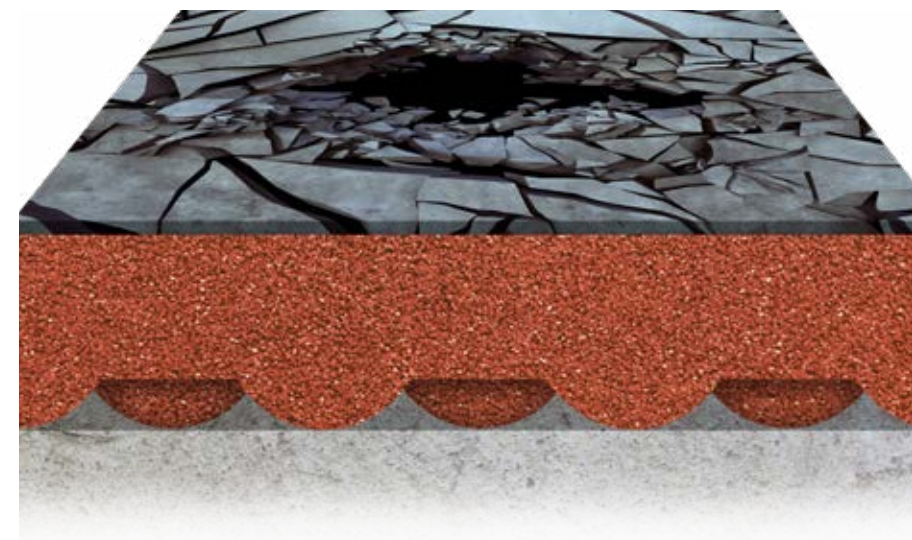

EUROFLEX®

BASE CAMP

Impact Protection Slabs & printed surface

The trend sport of climbing is enjoying increasing popularity. Climbing walls offer people from young to old a perfect opportunity to physically exert themselves and climb various marked climbing routes. In spite of safety measures, it can happen that climbers get down the last few metres faster than they want when abseiling and thus land ungentle. EUROFLEX® Base Camp protects climbers from severe injuries in falls of up to 3.0 m. With the printable surface, there are no limits to the design.

Surface covering with individual motif

EUROFLEX® slab (without chamfer)

concrete base

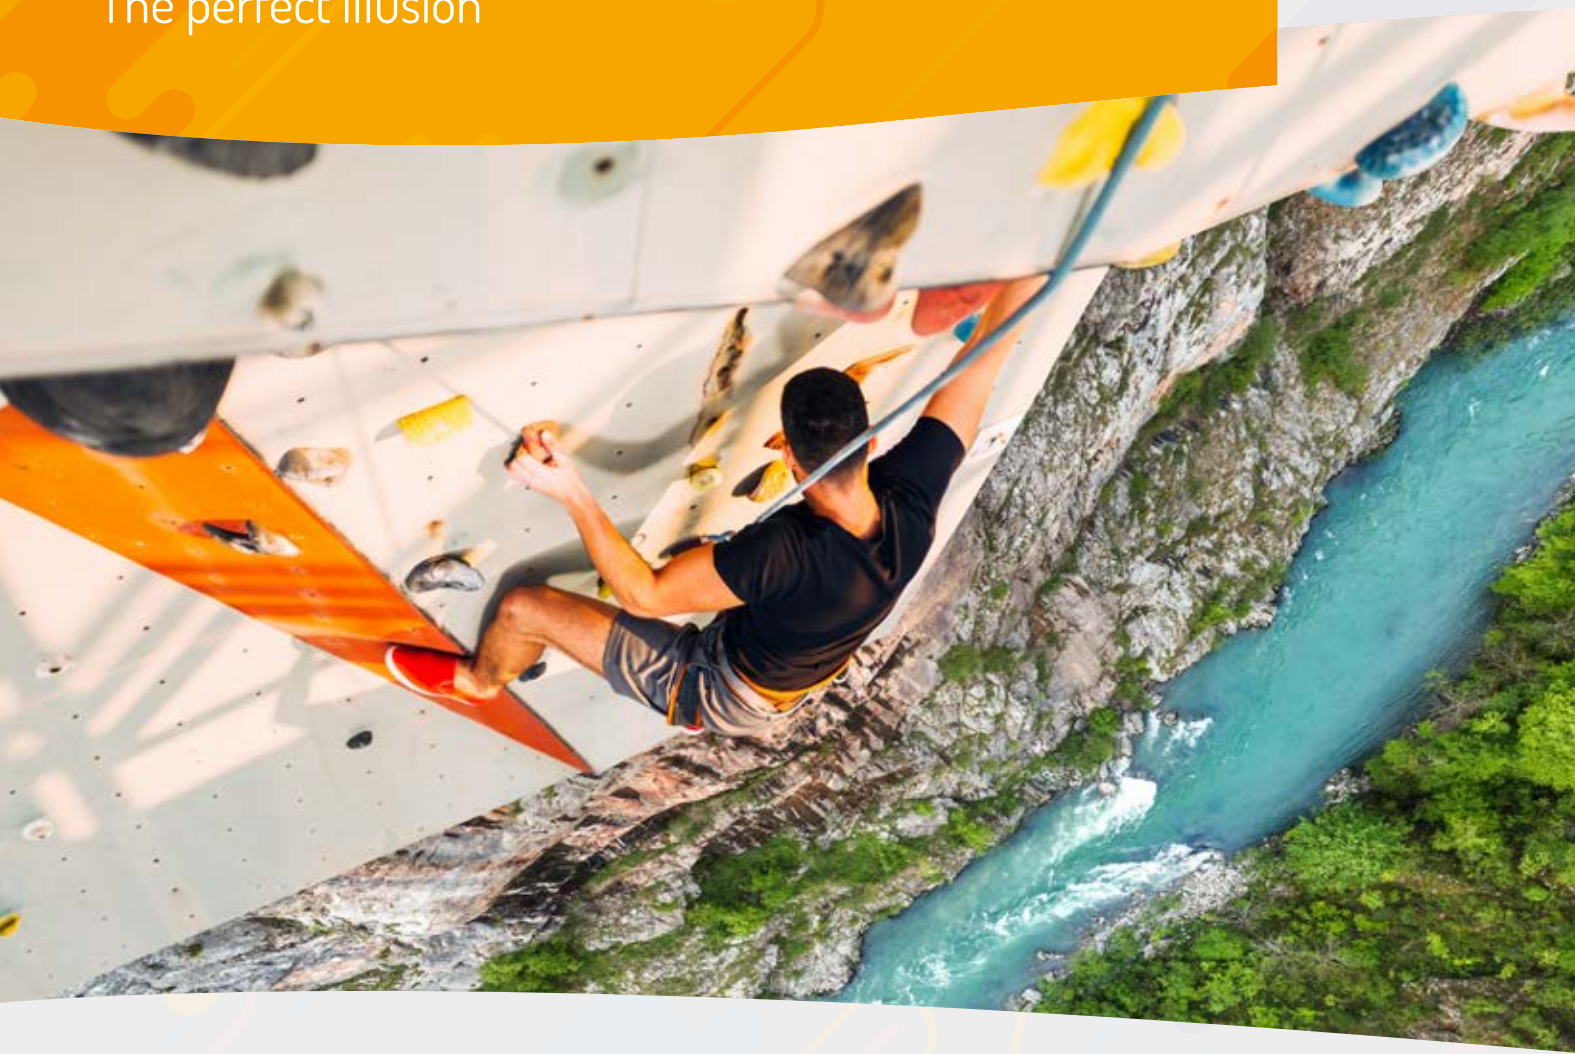

Advantages & properties

- 100% individual designs with any motifs, lines and logos can be printed pixel-precisely on the top layer
- various thicknesses for fall heights up to 3.0 m
- Pre-installed connector pins for quick and easy installation of the impact protection slabs
- high UV resistance (>6) for long-lasting colour brilliance
- high slip resistance (R10) for better traction
- high fire protection class (B1)
- antistatic
- extremely easy cleaning

DESIGN BY OUR DESIGNERS

The perfect illusion

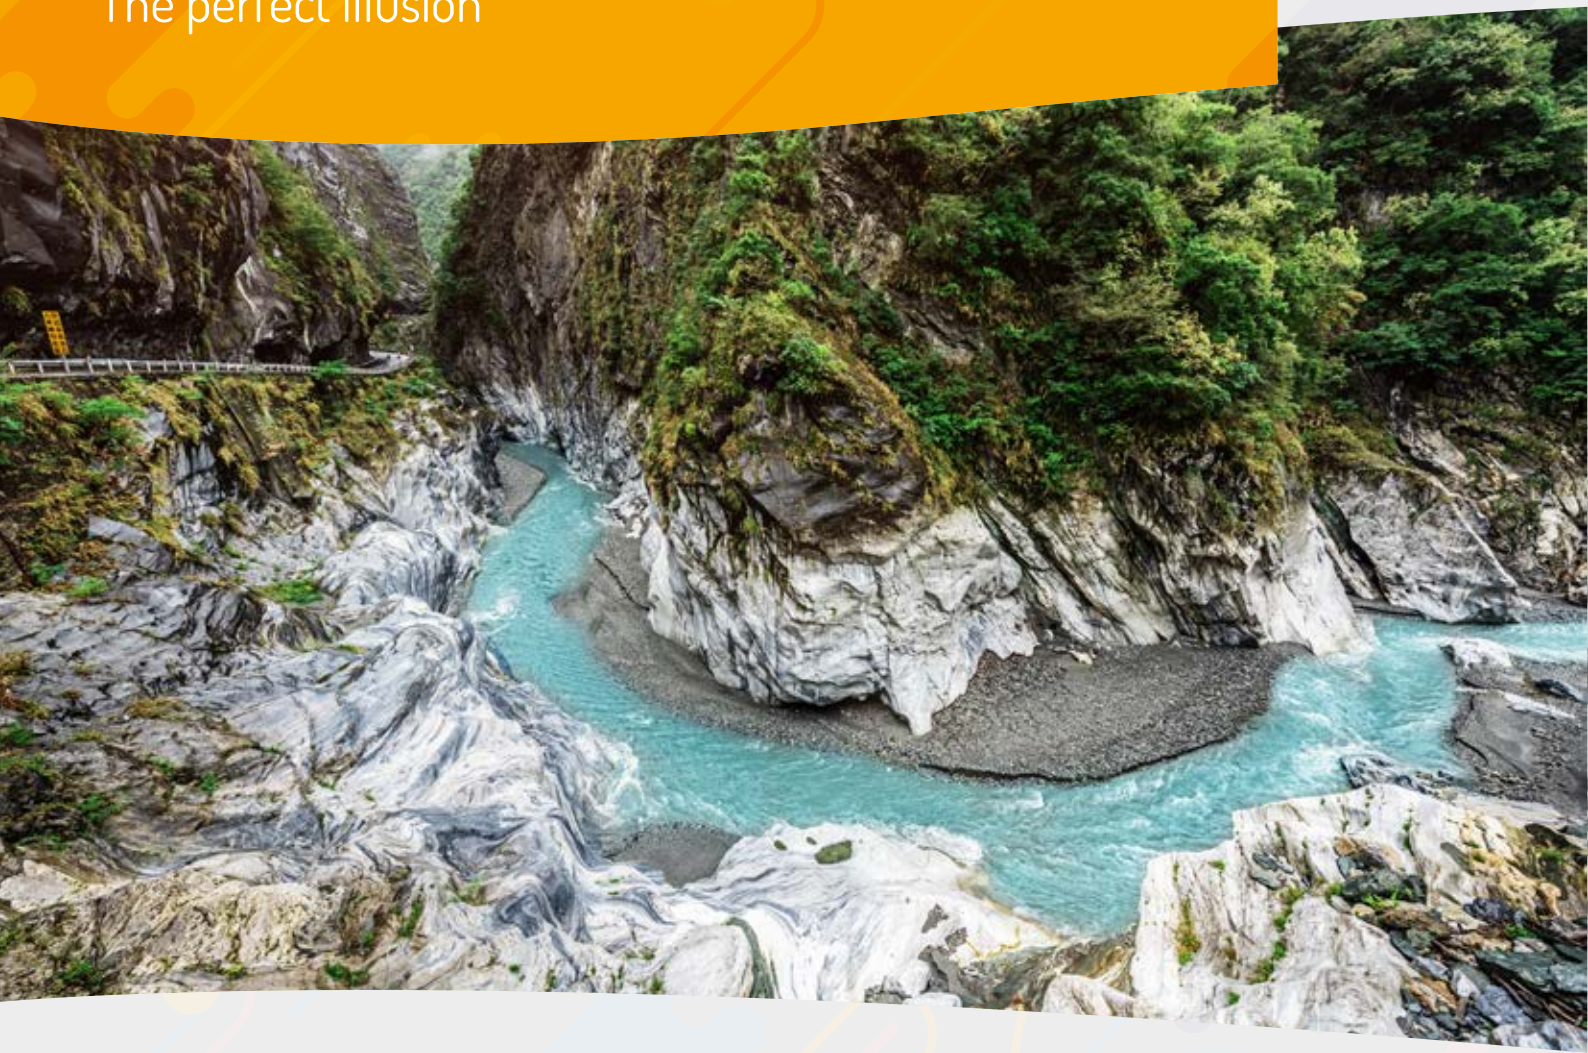

If you do not have any professional design possibilities yourself, our floor designers will be happy to take over this part. Contact us and we will send you a link to an image database that offers an almost unlimited selection of motifs. Then select 5-10 pictures and send us the numbers of these pictures. If you don't find what you are looking for in the picture database or if you want to have your own photos / logos printed on the surface, you are welcome to send them to us as vector graphics. Our professional floor designers will then create a first draft and accompany your project until the final print.

DESIGN BY OUR DESIGNERS

The perfect illusion

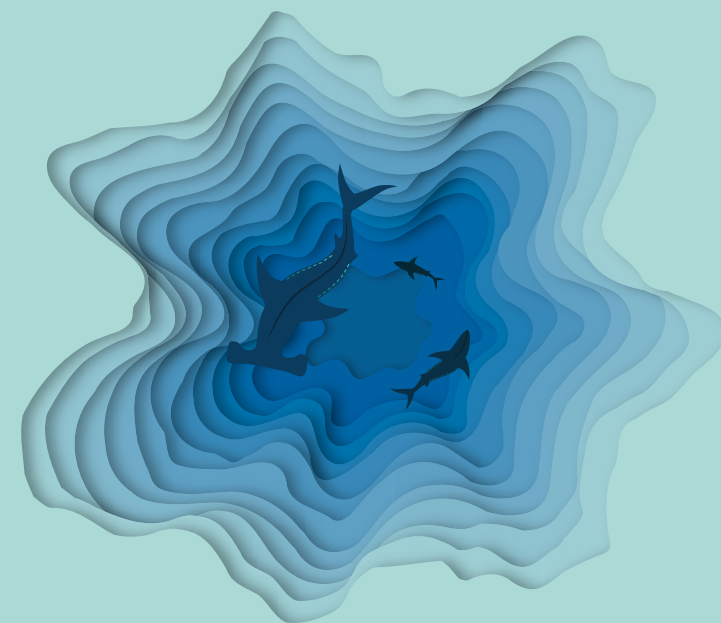

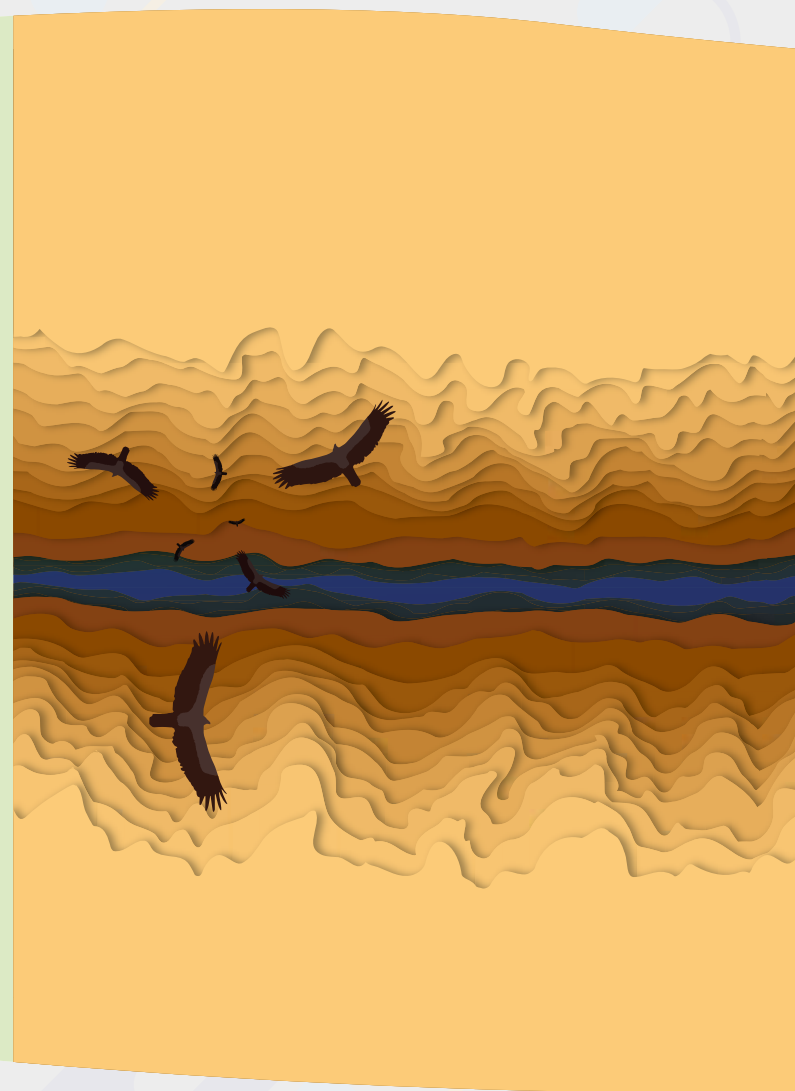

OWN DESIGN

Own design of vector graphics

YOUR LOGO

You can have your climbing hall floor individually designed by an advertising agency or your in-house marketing department! For printing, professionally created vector graphics are required, which can be printed in any size without any loss of quality. From individual forms, lines, company logos up to complete illustrations everything is possible! High-resolution pixel images are printable up to 6 m page length.

PREFABRICATED TEXTURES

For a modern look

EUROFLEX® Base Camp - The innovation in the climbing floor segment creates a new triad:
„Exceptional images and illusions, combined with safety and the necessary thrill for climbers.“
