

ASSESSMENT OF KRAIBURG RELASTE^C BY ECOVADIS

HOW YOU CAN BENEFIT AS OUR PARTNER

We are aware of our responsibility for the future.

That's why we voluntarily participate in the EcoVadis sustainability assessment!
In doing so, we...

... live the values of our corporate culture

Our corporate culture includes, among other things, open communication and transparency, not only in our dealings with our employees, but especially with our partners and customers. Sustainability is an important part of this culture. From our point of view, it is important and right to be able to respond to enquiries about the important issues of the day and to openly explain how we deal with these issues. Sustainability and openness within and outside the company have a long tradition at KRAIBURG Relastec.

... are part of a large network of sustainable companies

EcoVadis is one of the most reliable and recognised rating companies worldwide for sustainability ratings. With over 100,000 members, it is one of the largest platforms for companies to share their environmental, social and ethical performance as a key factor in the future viability of their business. Environmental requirements are constantly growing and via EcoVadis, we strive to meet market demand for social responsibility and sustainability performance.

... communicate our previous efforts as part of the assessment

In preparation for an initial assessment, we had a Corporate Carbon Footprint (CCF) according to the Greenhouse Gas Protocol carried out by the external, renowned service provider „denkstatt“ as early as 2022. The determination of direct and indirect emissions took place under consideration of Scope 1 and 2, as well as relevant Scope 3 categories. The CCF confirmed, what we as processors of secondary raw materials, had already been convinced of for a very long time: By using recycled raw materials, we save more than 130,000 Tonnes of CO₂ emissions per year. This is roughly equivalent to the annual emissions of a small town with over 17,000 inhabitants.

... improve our performance, make progress measurable and share it

EcoVadis has already awarded KRAIBURG Relastec a bronze medal. This puts us among the top 50% of all companies assessed. Of course, we now have the claim and also the responsibility to continuously improve ourselves. The EcoVadis evaluation takes place every year and, through standardized tools, we will be able to constantly compare ourselves with other companies in the network and quickly find partners with similar aims to work on future sustainable projects.

Follow us on EcoVadis and benefit from our assessment on sustainability, ethics, labour law and sustainable procurement. Perhaps you too will become part of the global network.

You are receiving this score/medal based on the disclosed information and news resources available to EcoVadis at the time of assessment. Should any information or circumstances change materially during the period of the scorecard/medal validity, EcoVadis reserves the right to place the business' scorecard/medal on hold and, if considered appropriate, to re-assess and possibly issue a revised scorecard/medal.
